

Quality Assurance Guarantee

Las Vegas Rock Inc. provides a Quality Assurance Guarantee for its meta-quartzite stone products, on the strength, structural integrity, and durability in the material and or workmanship in the production process. LVR warrants that all of our products will be of the highest quality. This guarantee does not include transportation or installation. Any alterations to the product, such as sealants, additional stonework, or items fastened to the stone, performed by the customer or any party other than LVR will render the guarantee void. All products will meet or exceed the industry standards for that particular product. Stone is a product of nature and as such, variances in color, texture, and size are normal and are a part of its appeal.

Jeremy Adams

Vice President of Operations - Las Vegas Rock Inc.
